Special attention should be called to the Surimono, which are exquisite, particularly the Triptych Surimono by Gakutei (Nos. 413 and 410); three out of the Shigemasa lacquer prints of "The Four Seasons" (Nos. 474, 475, 476), 21 out of the 24 "Filial Piety Series" by Shigeharu (fine examples, and hard to get), and considered by experts to be finer than the Kuniyoshi series of the same; a Complete set of Hiroshige II's Chuban Tokaido with yellow borders (rare); 23 unique printings of Hiroshige's First Tokaido with the seal of a Perfume Publisher, Senjoko, the "Shono" (No. 47), etc., a very fine example; Yeishi's Ise Monogatari (Nos. 241-246), and Utamaro Flower Arrangements.

Among the Books will be found an example of the First Printing Press in Japan by the Jesuits, 1611 (No. 75); a complete set of the 54 "Genji Monogatari" of Kunisada; a set of the Jinbutsu Tokaido, the figures by Kunisada and Kuniyoshi and landscapes by Hiroshige; the large book of the No Dance Masques (No. 132), is very rare; the rare Japanese and Chinese Seals of Artists (with English); the Views of China (with English); Buddhist Teachings written in gold (No. 74); a Makemono Painting of the Tosa School, the Mangwa of Hokusai complete and in the first edition (No. 98); two sets of Hokusai's little Tokaido; Sadatake's How to Wear Armor, 1780 (No. 136), etc.

(Collation: leaf of approbation, title and leaf of license, three leaves and 86 leaves of text.) Sm. folio, with the original wrappers, a little worn. Nagasaqui ex officina Goto Thomaesoin typographi Societatis Jesu, 1611.

EXTREMELY RARE AND POSSIBLY UNIQUE, NOT MENTIONED IN SATOW'S BIBLIOGRAPHY OF EARLY JAPAN IMPRINTS. The Jesuit missionaries started their first press in Japan, in or about 1591, and for the few years they printed or issued about a book a year, some in Latin and a few, as in this instance, in Japanese. Probably not more than twenty or so (Satow lists eighteen) were issued, and some of these are known only in single copies. The great persecution of the Christians that began in Japan not long after the date of this publication, when many thousands of converts were massacred including the priests, all their property was also burned and the Jesuit Printing Press was naturally one of the first objects to be destroyed. Such publications as were intended to be surreptitiously circulated in Japan were printed

in the Philippines, and European printing was not again attempted in Japan until after Perry's expedition in the nineteenth century.

The volume is printed on Japanese made paper ("Senka" paper) on doubled leaves cut at the front margin and is therefore printed on one side of the leaf only. THIS IS APPARENTLY THE EARLIEST KNOWN JAPANESE IMPRINT THAT HAS EVER BEEN OFFERED FOR SALE IN THIS COUNTRY.
